

REACH FOR THE MAX

What makes a great reel? For Okuma, one standout factor, evident in its Makaira reels, is MAXGEAR, a machine-cut, forged gear which ensures great strength to tackle the most formidable saltwater adversaries.

When you look at Okuma's Makaira spinning reels, it's clear they are already in a class of their own but they are further enhanced by the addition of the brand's forged stainless, machined MAXGEAR.

While most reels in this saltwater fishing category feature bronze, aluminium or machine-cut stainless steel gears, Okuma's Makaira spinning steel main gear stands out.

The firm has ported the main gear and incorporated other design elements to keep it lightweight enough to fish all day yet strong enough to keep pace with whatever the ocean throws at you.

Internally, the pinion gear and heat-treated spool shaft are 17-4 grade machine-cut stainless steel.

They are rust-proof and optimised to work with braided line and a high-output drag.

MAXGEAR is also said to reduce vibrations that can potentially frighten your next catch. Okuma made no compromises in the internal design of the MAXGEAR.

With MAXGEAR, Okuma Makaira spinning reels are the ultimate in strength and durability, which makes them suitable for big game fishing, from giant trevally, yellowtail and amberjack, to the top-end of the ocean-fishing spectrum, including the likes of giant bluefin tuna, marlin, cow yellowfin tuna and even large sharks.

FORGED FROM EXPERIENCE

Both the Makaira spinning reel line up and the MAXGEAR owe their design to

Okuma's 30-plus years of reel experience.

Since 1986, the Taiwanese Okuma Fishing brand has strived to deliver the ultimate fishing experience to everyone, as well as create the best fishing reels and rods for its fellow anglers, which are lightweight and precise.

It makes quality and affordable gear including fly, float and spinning rods plus fishing reels such as spinning, baitcast, trolling, and fly reels. They are all made with advanced materials with dynamic designs, whether for freshwater and saltwater fishing.

They are a blend of advanced technology and over three decades of fishing equipment supply experience.
